

For NAVICP Philadelphia (N00383) Drawings ONLY:

NAVICP Philadelphia has found discrepancies within the NAVICP Philadelphia data that populates the **NECO Drawings Available** field. Therefore, until further notice, for NAVICP Philadelphia solicitations which state **Drawings: Available Go to NLL Website**, contractors should:

1. For solicitations released before 1 August 2000, validate drawing availability by contacting the individual Philadelphia (N00383) buyer - their name, phone number and email address can be found in Administrative Communications Contact section of the NECO solicitation.
2. For solicitations released on or after 1 August 2000, validate drawing availability by reviewing the Clause Reference section of the NECO solicitation - this is where buyer initiated solicitation remarks are contained. If the solicitation remark states that drawings are available then the "Go To NLL Website" link will work to order the drawings.

We apologize for any inconvenience.

Call Mark Falcone (N00383) at 215-697-6525 if you have any questions concerning the above procedures.
